EXPERIENCE

17 Mar 2020 - 09 Feb 2021

Web Developer - iPrimitus Consultancy Services LLP, Bengaluru, India.

- Used HTML 5, CSS, JavaScript, Bootstrap and PHP to build the UI pages and custom actions.
- Client-side validation for required fields and correct email format using PHP.
- Integrated Email to enable real-time email delivery without backend setup.
- Edited existing codes to improve browser compatibility and mobile responsiveness.

PROJECTS

01 Jan 2020 - 30 Jun 2020

Master's Project - Mini E-commerce Site

- Developed a small-scale online shopping website as a personal project.
- The site allows users to view products, add them to a cart, and simulate a basic checkout process.
- Designed a responsive UI using ASP.Net , C#, MYSQL Server and CSS, and added dynamic functionality with JavaScript.
- This project helped strengthen skills in web design, DOM manipulation, and frontend and backend development.

17 Mar 2020 - 09 Feb 2020

Internship - Contact Form with Email and CAPTCHA Validation

- Built a secure contact form with email sending and CAPTCHA validation using HTML, CSS, JavaScript, Bootstrap and PHP.
- Responsive layouts for various screen sizes were implemented using HTML and CSS.
- Website performance was optimized through efficient styling and code organization.
- Interactive UI components were built to enhance user experience.
- Basic form validations were added using JavaScript.
- Source code was managed using Git and GitHub for version control.

Resume Builder

- Built a responsive resume builder using HTML, CSS, JavaScript, ReactJS, Material UI, and Redux.
- Implemented dynamic forms, live preview, and multiple templates with reusable components and global state management.

Flashcard Generator

- Built a responsive web app using ReactJS, HTML, CSS, and Tailwind CSS to create and display custom flashcards.
- Enabled users to create, view, and interact with flashcards featuring flip animations.
- Implemented dynamic input handling and state management for real-time content updates.
